Who we are

Bobrick has been serving global markets for over 50 years. Today our network of subsidiaries, warehouses, sales offices, and distribution partners routinely serve over more than 100 markets worldwide. Through its leadership in product innovation and manufacturing, Bobrick has the ability to deliver locally compliant, best-in-class products and services anywhere in the world.

We are a global leader in the manufacturing of

- Stainless Steel Washroom Accessories
- Soap Dispensers
- Toilet Partitions and Cubicles
- Baby Changing Stations
- Child Seating

BUILDING VALUE SINCE 1906

Manufacturing high quality stainless steel accessories and partitions for more than 100 years.

We Care For Kids.

Manufacturing the leading baby changing stations and child accommodations.

Manufacturing and selling value-priced stainless steel accessories.

thrislington cubicles

Manufacturing high-quality toilet partitions and cubicles for the global market.

The Bobrick Advantage

Architectural Inception:

Architects in major global centers work on large projects, confidently specifying Bobrick brands on overseas projects such as:

- Airports
- Office Buildings
- Amusement Parks
- Five Star Hotels
- Museums
- Universities
- Convention Centers
- Shopping Malls
- Hospitals

Bobrick Engagement:

The Architect's local Bobrick Representative will support these global opportunities and assist in the specification. These complex projects will be registered and managed by Bobrick's International Team to ensure seamless fulfillment.

- Email: globalspecs@bobrick.com
- Phone: 1.818.392.1080

Our Global Network can provide assistance for

Global Product Selection

- Product compliance and certifications
- Consumable availability
- Local design preferences

Distribution

- Options
- Quoting

Our representatives will secure strong basis-of-design specifications and provide the following to match with the appropriate local sourcing and fulfillment partners:

- Local Representative Information
- Project Information
- Specifying Architect Information
- Site Architect (or other contact) Information

Project Completion:

Bobrick will record the information and engage the job site representative, who will

- Finalize specification with the local architect and contractor
- Assist with specification enforcement
- Coordinate purchase and delivery from local distribution partners
- Obtain necessary documentation
- Arrange qualified installers
- Provide after-sales support
