BOBRICK

BUILDING VALUE SINCE 1906

INTRODUCING THE NEW STANDARD

Elevate your washroom design by specifying Bobrick's refreshed Automatic, Universal Roll Towel Dispenser for timeless aesthetics, reliable touchless operation and non-proprietary paper refills.

Elegant intuition cue directs patrons to dispense paper towels

Adjustable lengths and stub roll utilization for minimal waste

Satin-finish type 304 stainless steel for durability

B-3974 Recessed Towel/Waste
*Also available: **B-3979** Surface Mounted, **B-39747** Recessed Mounted, 18-gallon (68.0-L) waste receptacle*

Recessed lock keeps profile sleek and streamlined

B-2974 Surface Mounted Towel

Space savings with a smaller footprint

B-29744 Recessed Mounted

Interchangeable and Modular

3944-152
Folded towel dispenser module

3961-50
Touchless, pull-towel dispenser module

3974-350
Automatic dispenser module

Interchangeable towel and waste modules facilitate change-over from folded to economical universal roll towels and waste receptacle capacities. Modular waste receptacles: 6 gal. **366-60**; 12-gal. **367-60**; 18-gal. **368-60**

FEATURES & BENEFITS

Improve patron satisfaction with the intuitive operation and cost savings of universal roll paper towel.

New and intuitive, patron-friendly light clearly directs users to streamlined towel activation zone eliminating hand waving frustration.

Blinks green when unit is ready to dispense

Blinks red when out of paper or service is needed

If using battery, blinks alternating red and green when batteries are low*

Accommodates easily available universal roll paper towels to reduce cost and waste

Trigger bar technology and adjustable sensor range virtually eliminates unintentional dispensing

Adjustable dispense length and concealed or exposed paper option

*3974-57 AC adapter eliminates battery requirement

Quieter operation and dispensing

Unmatched reliability with 99.99% jam free operation

Project Integrity

For high-traffic applications, specifying the roll towel dispenser versus folded towel protects your design intent by preventing conversions to plastic dispensers post installation.
