Replacement Solutions

**BUILDING VALUE SINCE 1906**

# UPGRADE TO SMARTER SPACES

## CHECKLIST HEALTHY RESTROOM DESIGN 360°

### 1 Overall Risk Assessment

- Assess physical distancing and occupancy requirements
- Evaluate airflow and moisture in the restrooms
- Identify opportunities to reduce or eliminate touchpoints

### 3 Replacement Opportunities

- Specify touchless and low-touch products where appropriate
- Ensure reliable availability and cost-effectiveness of consumables, such as soap and paper towels
- Provide adequate waste disposal in all areas
- Enhance privacy within toilet compartments with taller panels or doors and additional amenities

### 2 Space Considerations

- Remove doors or block them open
- Understand people flow and congestion
- Understand privacy requirements
- Provide signage and signaling tools to encourage desired behaviors

### 4 Mitigation, Cleaning & Maintenance

- Understand building's consumable management strategy and product solutions
- Support ease of cleaning, maintenance and refills
- Develop stockout prevention strategy
- Promote safe environments by eliminating harmful bacteria, viruses and odors

## BOBRICK PROVIDES HEALTHY, FACILITY-FRIENDLY SOLUTIONS FOR ANY BUILDING:

#### Standard Use (p. 2-3)

Prioritize touchless products with timeless design and durability.

#### Heavy Traffic (p. 4-5)

Minimize touchpoints while supporting efficient, long-term maintenance.

#### Single User (p. 6-7)

Support inclusivity and provide users with all the amenities they need for a healthy, pleasant experience.

# YOUR RESTROOMS DESERVE A CHECKUP

## TOUCHLESS IS JUST THE BEGINNING

Many manufacturers offer simple solutions to improve hygiene. Bobrick takes a more comprehensive approach for long term hygiene and peace of mind for users, offering facility managers and owners durable, cost-effective products for use throughout the restroom.

## HEALTH & WELLNESS STANDARDS ARE GAINING MOMENTUM

Facility Managers and Building Service Contractors agree that cleanliness and hygiene standards are a good place to start in developing responsive product recommendations.

ISSA's, the worldwide cleaning industry association, GBAC STAR™ Service Accreditation program provides third-party validation of a building service contractor's cleaning, disinfection, and infection prevention protocols and procedures.

Consider the following guidelines when selecting products to improve overall hygiene for your restroom:

### GBAC Checklist

Focus on creating strong Air, Water and Surface cleaning standards

Improve Indoor Environmental Quality (IEQ) while eliminating environmental threats

Lower operating costs while improving user experience

Upgrade to surfaces that will not harbor viruses and bacteria

Offer privacy options while simultaneously fulfilling physical distancing requirements

### FACILITY MANAGERS & ARCHITECTS AGREE

Touchpoints and restrooms are both critical challenges\*.

Hygienic replacement opportunities abound.

*\*According to research conducted by Bobrick*

### DID YOU KNOW?

A single restroom can have more than

**15 TOTAL TOUCHPOINTS**

### THE CDC SAYS:

- Encourage frequent, effective hand hygiene
- Control overcrowding and support air quality
- Clean frequently

### INFORMED BY EXPERTS

Bobrick's Hygiene, Health & Wellness Advisory Board includes experts in infection prevention, facility management, healthy design and manufacturing.

# STANDARD USE

Standard use restrooms should balance the use of touchless products with timeless design and durability while facilitating easy long-term maintenance.

## HEALTH CHECK

Bobrick has designed this restroom guide based on common criteria found across health and wellness certification standards.

### Overall Risk Assessment

- Low cross-contamination risk
- Adequate space to physically distance
- Minimal maintenance load

### Product Selection

- 5 touchpoints eliminated with soap dispensers, faucets and PureDri Sanitizer Hand Dryer
- Convert manual urinals to FALCON Touchfree to eliminate touchpoint and water droplets while dramatically reducing water usage

### Space Design

- PureDri Sanitizing Hand Dryer should be placed close to lavatory to minimize water trail
- Privacy is enhanced and flush plume spread reduced with extended-height partitions

### Mitigation, Cleaning & Maintenance

- Easily maintained top-fill soap dispensers
- Minimized stockout risk with easy-to-source bulk soap
- PureDri Sanitizing Hand Dryer does not require filters and has one bulb change per year

## FEATURED PRODUCTS

**B-8281 SureFlo® Soap Dispenser**  
Touchless, top fill with bulk foam soap. Fits in one inch diameter counter hole.

**B-8878 Designer Series Faucet**  
Polished chrome, touchless operation.

**B-9100 PureDri Sanitizing Hand Dryer**  
Continuous air purification while offering a fast touchless hand dry. Patented blast of purified air after each use.

# SIMPLY HEALTHY

**FALCON Urinal Conversion System\***  
Touchless operation.

**DuraLineSeries® Gap-Free, Maximum Height Partitions**  
Ensures durability while providing a physical barrier for privacy and containing flush plume.

**1040-121 Peep No More™ Automatic Occupancy Indicator**  
Supports privacy and security. Readable from a distance.

\*Not shown in room but appropriate for standard use.

# HEAVY TRAFFIC

In high-traffic restrooms, reducing touchpoints is just part of the long-term wellness strategy. Accessories should optimize traffic flow while maximizing consumable life cycles and maintenance efficiency.

## HEALTH CHECK

### Overall Risk Assessment

- Low cross-contamination risk
- Optimized maintenance load
- Potential for greater density during peak usage

### Product Selection

- 5 touchpoints eliminated with soap dispensers, faucets and towel dispenser
- Adaptable to patron preference, convertible roll towel dispenser can switch to folded towels

### Space Design

- Entry/exit door removed for efficient traffic flow
- Privacy is enhanced and flush plume spread minimized with extended-height cubicles and with FALCON Cartridge Urinals

### Mitigation, Cleaning & Maintenance

- Versatile soap dispensers accept a variety of liquid soaps or hand sanitizers
- 18-gal waste receptacle helps minimize labor

## FEATURED PRODUCTS

**B-820 Automatic Multi-Feed Soap Dispensing System**  
Top-fill large capacity soap reservoir feeds up to six soap dispensers.

**B-8878 Designer Series Faucet**  
Polished chrome, touchless operation.

**B-39747 ClassicSeries® Automatic Universal Roll Paper Towel Dispenser/Waste Receptacle**  
Touchless. LED light for intuitive usage. High capacity waste receptacle. Convertible.

# WELLNESS FOR THE LONG HAUL

**B-290 Welded-Frame Mirror**  
One-piece, roll-formed with satin finish and beveled frame edge.

**KB348 Koala Step**  
Self-retracting child step helps children reach faucets and soap easily.

**B-2706C ClassicSeries® Napkin/Tampon Vendor (Free Vend)®**  
Ensures equitable access to feminine hygiene disposables. Manual operation, no wiring or batteries needed.

\*Not shown in room but appropriate for heavy traffic.

# SINGLE-USER RESTROOM

Support inclusivity and provide users with all the amenities and privacy they need for a healthy, pleasant experience.

## HEALTH CHECK

### Overall Risk Assessment

- Low cross-contamination risk
- Low slip risk from water trails

### Product Selection

- Touchpoints eliminated with soap dispensers, faucets and towel dispenser
- Adaptable hygiene with convertible automatic towel dispenser, which can switch to folded towels

### Mitigation, Cleaning & Maintenance

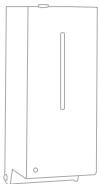

- Easily maintained top-fill soap dispensers
- Minimized stockout risk with easy-to-source bulk soap
- PureDri Sanitizing Hand Dryer does not require filters and has one bulb change per year

 Touchpoint Eliminated

 Enhanced Hygiene

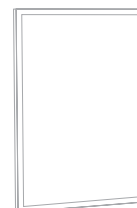

## FEATURED PRODUCTS

**B-2013 Automatic Soap Dispenser**  
Touchless. Accepts variety of foam soaps and hand sanitizers.

**B-3974 ClassicSeries® Automatic Universal Roll Paper Towel Dispenser/Waste Receptacle**  
Touchless. LED light for intuitive usage. Convertible.

**B-290 Welded-Frame Mirror**  
One-piece, roll-formed with satin finish and beveled frame edge.

**FALCON Urinal Conversion System**  
 Touchless operation.  
 Uses dramatically less water.

**B-221 Surface Mounted Seat-Cover Dispenser\***  
 Dispenses 250 single- or half-fold toilet seat covers.

**Koala Kare KB301-SS Baby Changing Station**  
 Includes Microban® product protection and diaper disposal bag dispenser.

\*Not shown in room but appropriate for single user restroom.

# WELLNESS ESSENTIALS

## B-8281 SUREFLO® FOAM AUTOMATIC, TOP-FILL BULK SOAP DISPENSER

- Designed to fit into standard 1" diameter counter hole
- With the touch free sensor, there is no direct contact between the patron and the dispenser, preventing cross-contamination
- Top-filling reduces labor, eliminating the need to go under the counter
- Uses bulk soap for savings of 80% or more

## AUTOMATIC MULTI-FEED SOAP DISPENSING SYSTEM

*Foam and Liquid*

Counter mounted fill port

- Designed for high traffic facilities, the top-fill large capacity soap reservoir feeds up to six soap dispensers reduces maintenance time and costs
- Touch free sensor on spout reduces cross-contamination risk to patron
- To specify select either B-820-248 (Foam) or B-820-258 (Liquid) Soap Dispenser, then select the B-820 Multi-Feed Soap Reservoir

## AUTOMATIC, UNIVERSAL ROLL TOWEL DISPENSER

- Timeless aesthetics, reliable touchless operation
- Accommodates easily available universal roll paper towels to reduce cost and waste
- New and intuitive, patron-friendly light directs users to streamlined towel activation zone

## FALCON URINAL CONVERSION SYSTEM

- FALCON Urinal Conversion System helps facilities dramatically reduce water usage and provides significant cost in use savings and upgrades hygiene
- Water savings of 95 - 99% over traditional urinals
- Dramatically reduces flush plumes thereby improving hygiene

## BOBRICK PURE HYGIENE SOLUTION

Bobrick **Pure** offers clinically backed methods for neutralizing and eliminating harmful bacteria, viruses and odors.

### B-9100 PUREDRI SANITIZING HAND DRYER

*Anodized aluminum with titanium finish*

**PureDri**  
Sanitizing Hand Dryer

- Mounting template fits over existing dryer space
- Suitable for all public and commercial restrooms
- Sanitizes up to 215 square feet

*Decal provides a visual cue to show visitors you take their health and well-being seriously*

Beyond touchless products, these new and unique Bobrick amenities support health and wellness in any restroom.

## SUPPORT FAMILIES & INCLUSIVITY

### KB300 KOALA KARE

*Baby Changing Station*

- Exclusively features Microban® product protection, which helps inhibit the growth of stain- and odor-causing bacteria on product surfaces
- Includes internal spring tab that pushes liners forward while only allowing single liner dispensing
- Constructed of polypropylene and features a unibody steel chassis for superior strength

### KB348 KOALA STEP

*Self-Retracting Child Step*

- Helps children reach faucets and soap easily
- Reduces water splashing on counters, floors and clothes
