

Bobrick Product Comparison Sheet

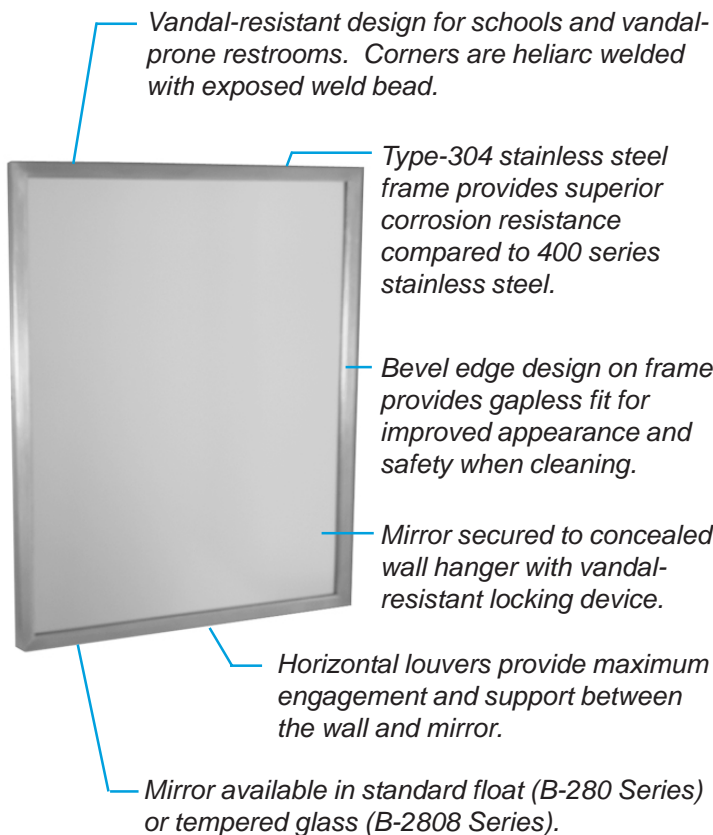

Mirrors

Reflecting Quality

Bobrick offers a large selection of quality mirrors designed for a variety of applications ranging from schools to corporate buildings.

FAST FACTS

Best Value B-280

Why Bobrick Mirrors?

- **Type-304 stainless steel provides superior corrosion resistance, compared to 400 series stainless steel, against environmental moisture, hose-down maintenance and strong cleaning solutions.**
- **The new locking mechanism makes installation easier for mirrors mounted flush to lavatory and countertop backsplash for B-165, B-280 and B-290.**
- **Due to unique construction, Bobrick mirrors are guaranteed against silver spoilage for 10 or 15 years.**
- **Specialty mirrors, including frameless, mirror/shelf combinations and *optional reflective surfaces, available on special order.**
- **2-day QuickShip for most standard size B-165, B-280, and B-290 models.**

Value Added Features:

*Optional Reflective Surfaces	Several special-order reflective surfaces available including; polished stainless steel (B-165, B-290 Series), tempered glass (B-165, B-280, B-290 Series) and laminated glass (B-165, B-290 Series). These finishes resist breakage and provide a measure of safety from broken glass. They differ in color and reflective quality from standard glass mirrors. Available on special order.
ADA Compliance	Refer to the Barrier-Free Washroom Planning Guide (Form No. BFPG-03) and Bobrick's Technical Data sheets for mounting, placement, and operation guidelines. All building plans should be confirmed with local jurisdictions to ensure job compliance.
Warranty	See chart on reverse side.

Cleaning/Maintenance Tips:

1. Clean equipment operates better, lasts longer, and requires less maintenance.
2. Polish with the grain of satin finish.
3. Remove residue of any cleaning product with water and wipe dry with clean cloth or paper.
4. Please refer to Technical Bulletin 21 for further stainless steel cleaning instructions.
