

Bobrick Product Comparison Sheet

Soap Dispensers

*Inventors
and Innovators*

In 1908, Bobrick invented the first liquid soap dispenser and continues to innovate through state-of-the-art technology. Our history and experience makes us the #1 choice for all soap dispensing needs.

FAST FACTS

Best Value B-822

- Top filling feature results in vandal-resistance and reduced maintenance.*
- The end of the stainless steel spout is formed and reduces dripping. The improved spout design eliminates internal parts that can dislodge through heavy use.*
- Bright polished stainless steel vandal-resistant spout can be rotated 360°; free turning design prevents damage to the unit.*
- Corrosion-resistant valve dispenses a wide variety of commercially marketed all-purpose hand soaps.*
- Vandal-resistant locking cover prevents unauthorized access; BobKey required.*
- Shatter-resistant polyethylene container.*
- Pre-notched soap supply tube allows for free flow of liquid without vacuum effect against interior surface of bottle.*

Why Bobrick Soap Dispensers?

- **Designed to dispense a wide variety of commercially marketed all-purpose hand soaps allowing significant savings over proprietary products.**
- **All soap dispensers meet high quality control standards through rigorous testing, minimum 1 million cycles without part failure.**
- **Improved valve design is more robust and operates more reliably than competitor's products.**
- **Design choices in surface mounted and recessed models available for all budgets and installations.**
- **2-day QuickShip for most models.**

Value Added Features:

ADA Compliance	Refer to the Barrier-Free Washroom Planning Guide (Form No. BFPG-03) and Bobrick's Technical Data sheets for mounting, placement, and operation guidelines. All building plans should be confirmed with local jurisdictions to ensure job compliance.
All Soaps	Liquid soap dispensers can dispense commercially marketed all-purpose hand soaps, synthetic detergents and antibacterial soaps containing PCMX and/or Triclosan.
Warranty	One year warranty on all Bobrick Washroom Accessories.
Testing	All dispensers cycled to at least 1 million cycles without part failures during in-house testing (Does not include vandalism or effect of time).

Cleaning/Maintenance Tips:

1. Clean equipment operates better, lasts longer, and requires less maintenance. Wipe the unit daily, including the spout, using a damp cloth. *Never use abrasive cleaners.*
2. Periodically clean the dispenser by pumping warm water mixed with soap from the dispenser through the vessel and valve to flush out contaminants or dried soap residue. *Never use abrasive cleaners.*
3. If the soap valve fails to operate satisfactorily, the problem may be caused by dried soap or dirt clogging the spout or soap valve. **TO REMEDY:** Clean spout with end of BobKey and/or flush the dispenser as described above.
