BOBRICK INTRODUCES THE CUBICLE COLLECTION

July 22, 2009 – North Hollywood, CA – USA – Bobrick Washroom Equipment proudly announces the introduction of the Cubicle Collection accessories line, now available worldwide.

For prestigious buildings with public access this new suite of products adds style and convenience to any restroom or toilet cubicle. The sleek satin-finish stainless steel used in the products is a premium material that is also low-maintenance and vandal-resistant.

Featuring contemporary styling, the models share common elements such as the threaded escutcheons and post diameters to enhance their coordination.

The pieces in the collection include a spare toilet roll holder, a surface-mounted toilet tissue dispenser, a toilet brush holder and a coat hook. Setscrews and concealed mounting plates provide a snug fit on the wall and help to prevent vandalism.

With more than 100 years experience in soap dispensing and stainless steel fabrication, Bobrick is one of the most trusted names in washroom accessories. With an extensive range of dispensing solutions for basin-mounted, wall-mounted, recessed, behind-the-mirror, or no-touch needs, our reputation for excellence in product design and quality, reliable service, and exceptional value is second to none.

For more information, visit Bobrick on the web at www.Bobrick.com, or call +1-818-764-1000.
