

CUBICLES & TOILET PARTITION SYSTEMS

BUILDING VALUE SINCE 1906

STEPS TO SPEC

HOW TO SPECIFY BOBRICK CUBICLES & PARTITIONS

Bobrick cubicles and partitions are made-to-order products. To specify Bobrick cubicles and partitions, follow Steps to Spec, our consistent methodology for customizing your design, referenced throughout this catalog.

For a quick specification reference, get the Bobrick Steps to Spec guide. Download yours at bobrick.com/steps.

Select a System

PRIVADA® Cubicles, Evolve Cubicles or Traditional Partitions

Select a Material

Available materials* include Compact Grade Laminate (CGL), Solid Color Reinforced Composite (SCRC), High Pressure Laminate (HPL) and Wood Veneer Laminate.

*Not all materials are available for each system.

Select Privacy Options

Gap-free design, increased door and panel heights and reduced floor clearance are standard on PRIVADA and Evolve Cubicles, and optional on Traditional Partitions.

Select Design Options

A range of colors, patterns and finishes available for all systems. With Traditional Partitions, choose mounting configuration, hardware and add dividers or screens.

A FULL LINE OF CUBICLES & PARTITIONS

AN ENGINEERED SELECTION

Bobrick has expanded its selection to include a full line of toilet cubicles and partitions. All Bobrick products are specially engineered with unique, rigorously tested hardware, providing an unrivaled range of design options.

ONLINE RESOURCES

Discover a wealth of information and helpful tools at bobrick.com. Manage projects, build your specification and generate client deliverables using Bobrick's **Digital Spec Builder** at bobrick.com/digital-spec-tool. You can also access case studies, Technical Data, Guide Specifications, BIM Objects and more.

GET TO KNOW OUR SYSTEMS

Start your design by selecting one of Bobrick's three primary cubicle and partition systems: PRIVADA Cubicles, Evolve Cubicles and Traditional Partitions.

Evaluate systems on pages 2 and 3.

SELECT A SYSTEM

THREE UNIQUE PRODUCTS TO ACHIEVE YOUR GOALS

Prestige Properties

Bobrick now offers three primary cubicle and toilet partition systems to meet the needs of any building. Start by selecting a system, then refine design options using the **STEPS TO SPEC** process.

Prestige Properties: Class A and marquee properties require elevated design aesthetics and enhanced privacy.

Heavy Traffic Facilities

Heavy Traffic: Buildings like schools, airports and convention centers demand durable, economical solutions that deliver day-to-day performance.

Standard Use Buildings

Standard Use: Standard offices, industrial facilities, as well as some schools and universities, require simple, budget friendly partitions that prioritize durability and design options.

PRIVADA CUBICLES: FOR A DISCRIMINATING DESIGN

With elevated design and privacy, PRIVADA is ideal for prestige projects.

EVOLVE CUBICLES: FOR OPTIMIZED DURABILITY & PRIVACY

Suitable for heavy traffic and standard use, Evolve provides exceptional durability and European-style privacy without compromising budgets.

TRADITIONAL PARTITIONS: FOR OPTIONS THAT PERFORM

Our Traditional Partitions have stood the test of time. They are recommended for standard use as well as heavy traffic when budget is the overriding concern.

PRIVADA CUBICLES

HIGH PRESSURE LAMINATE (HPL) & WOOD VENEER LAMINATE

Self-closing doors
close smoothly and
gradually

..... Award-winning occupancy
indicators with discreet
emergency access release

Floating effect
enabled by recessed
foot pedestals

Limited distribution

ELEVATED DESIGN. EDUCATED DECISION.

PRIVADA Cubicles offer the elevated aesthetics, functionality and privacy that the most discerning restroom patrons have come to expect.

PRIVADA's distribution is limited. Reach out on privadacubicles.com to be contacted by a PRIVADA representative.

APPLICATIONS

- Class A offices
- Premium restaurants
- VIP lounges and suites

MATERIAL PRICING & LEAD TIME

STEPS TO SPEC

 Select a Material	 Select Privacy Options	 Select Design Options
<ul style="list-style-type: none"> <input type="checkbox"/> High Pressure Laminate (HPL) <input type="checkbox"/> Wood Veneer Laminate <p>ASTM E 84 Fire Rating: Class B</p> <p><i>See page 18 for material descriptions.</i></p>	<p>Height Options</p> <ul style="list-style-type: none"> <input type="checkbox"/> Standard: 72" doors & panels, 9" floor clearance <input type="checkbox"/> Extended: 84" to 96" doors & panels, 4" floor clearance 	<ul style="list-style-type: none"> <input type="checkbox"/> Stainless Steel Pedestal (Upcharge applies) <p>Colors, Patterns & Woodgrains: See pages 22-23 for HPL colors and wood veneer laminates</p>

HARDWARE & PEDESTAL

Thoughtfully crafted, minimalist hardware makes a sophisticated design statement. Stainless steel hardware with concealed fasteners and connection points come standard.

PRIVADA's signature floating effect is enabled by recessed foot pedestals, appearing suspended without compromising stability.

DESIGNER'S NOTE

Privacy is not just a trend—it is an expectation. Learn more by registering for our new **AIA/HSW CEU course, “Design Solutions for Restroom Privacy.”**

ILLUMINATING PRIVACY & HIGH-END DESIGN

BANK GLOBAL HEADQUARTERS

When you want to invest in your employees, invest in their spaces—even the ones that customers might never see. A global, publicly traded bank embraced that strategy in 2017, putting PRIVADA at the center of their restroom renovation. “The cubicles create a room-like environment that transcends a typical commercial look,” says architectural sales representative Dena Taylor.

HARDWARE & PEDESTAL

Evolve’s anodized aluminum hardware and fittings provide the built-in privacy and modern function that discriminating projects demand.

A WHOLE NEW GAME

GLOBAL MANUFACTURER HEADQUARTERS

At a global retail goods manufacturer’s headquarters, Evolve Cubicles helped deliver seamless design and a comfortable experience for employees and visitors. When the company needed an affordable, spacious privacy solution, Evolve’s 72” x 72” single-piece CGL divider panels ensured a clean look with uncompromised depth.

TrimLineSeries™ HPL	\$\$	20 days

Price Index based on a relative scale of \$ to \$\$\$\$\$. Price and lead time estimates apply only to standard color selection.

STEPS TO SPEC

Select a Material

DuraLineSeries® **Compact Grade Laminate (CGL)**

Engineered for wet and high-traffic environments, featuring a polished black edge design, wide selection of colors, patterns and woodgrains and a 25-year warranty.

Learn how DuraLineSeries helped Vashon Island High School achieve Washington state's first all-gender school restroom on page 17.

See page 18 for specifications and page 20 for colors, patterns and woodgrains.

SierraSeries® **Solid Color Reinforced Composite (SCRC)**

A solid, color-through material that is perfect for high traffic and vandal-prone applications, such as schools, with a 25-year warranty.

Learn about SierraSeries's lasting, 15-year legacy of durability at Strasburg High School on page 17.

See page 18 for specifications and page 21 for colors.

DesignerSeries™ & TrimLineSeries™ **High Pressure Laminate (HPL)**

Suitable for projects from budget to prestige, our HPL series provide versatile options with our widest range of colors and finishes.

- Choose **DesignerSeries** for standard steel core stiles and 2-year limited warranty
- Choose **TrimLineSeries** for standard steel core stiles, stainless steel edge trim and 5-year limited warranty

See page 18 for specifications and pages 22-23 for colors, patterns and woodgrains.

Additional Budget HPL Series are available. Visit bobrick.com for more information.

STEPS TO SPEC

Select Privacy Options

Privacy is increasingly seen as an expectation. Gaps and sightlines are among the most common complaints about today's toilet partitions.

HEIGHT OPTIONS

Standard Height:
58" doors & panels,
12" floor clearance
Available On: All Systems

Maximum Height:
72" doors & panels,
4 5/16" floor clearance
Available On: All Systems

Extended Height:
84" to 96" doors & panels,
1" floor clearance
Available On: DuraLineSeries CGL,
SierraSeries SCRC (Overhead-
Braced and Floor-to-Ceiling only)

GAP OPTIONS

Standard Reduced-Gap:
±3/32" door-to-stile gaps,
1/2" to 1" wall gaps
Available On: All Systems

Gap-Free Doors & Stiles:
Interlocking, sightline-free design
Available On: DuraLineSeries CGL,
SierraSeries SCRC

Select Design Options

MOUNTING CONFIGURATIONS

Floor-Anchored

Overhead-Braced

Floor-to-Ceiling

Ceiling-Hung

TRADITIONAL PARTITIONS

Select Design Options (continued)

STANDARD HARDWARE:

Standard concealed stainless steel barrel hinges adjust for partial opening or self-closing; stainless steel brackets, latch and door pull.

HARDWARE OPTIONS

Heavy Duty Full-Height Stainless Steel Brackets

Occupancy Indicator Latch (Standard with Extended Privacy)

COLORS, PATTERNS & WOODGRAINS

See pages 20-23 for standard color selections

A FIRST FOR PRIVACY VASHON ISLAND HIGH SCHOOL

Vashon Island High School, just outside of Seattle, recently became home to the first all-gender school restroom in Washington state. Bobrick DuraLineSeries, Gap-Free, Maximum Height partitions with heavy duty, full-height brackets were pivotal to achieving the necessary privacy and durability that school restrooms often demand.

A LESSON IN DURABILITY

STRASBURG HIGH SCHOOL

When Strasburg High School replaced its original wood partitions from the 1960s, the new installation turned out to be virtually ageless. After 15 years and counting, SierraSeries partitions are still providing outstanding damage resistance. The school reports the installation is still holding up like new.

MATERIAL OVERVIEW

COMPACT GRADE LAMINATE (CGL)

Material Specification: Solidly fused plastic laminate with matte-finish melamine surfaces; integrally bonded colored face sheets and black phenolic-resin core. Wilsonart® SOLICOR™ color-through CGL also available with core to match surface.

- Scratch, moisture, impact and graffiti resistant
- Class A or B ASTM E 84 classification
- Wide selection of colors and patterns

Available on: Evolve Cubicles, Traditional DuraLineSeries

SIERRASERIES (SCRC)

Material Specification: Dyed wood fibrous material reinforced with polycarbonate and phenolic resins fused into a homogeneous piece.

- Solid color-through material
- Scratch, dent, moisture and impact resistant with Graffiti-Off surfaces
- Class B ASTM E 84 classification
- Through-bolted panel-to-stile bracket, keeper and robe hook

Exclusively Available on: Traditional SierraSeries

HIGH PRESSURE LAMINATE (HPL)

Material Specification: High Pressure Laminate with a 45 lb density, industrial grade, resin-impregnated particle board substrate. Wood Veneer Laminate substitutes decorative paper with wood veneer.

- 1" doors, stiles and panels
- Impact and graffiti resistant
- Class B ASTM E 84 classification

Available on: PRIVADA Cubicles, Traditional DesignerSeries, Traditional TrimLineSeries, Budget HPL Series

DESIGNER'S NOTE

All Bobrick cubicle and partition materials comply with applicable U.S. fire codes. Get ASTM E 84 test documentation and more at bobrick.com.

DURABILITY COMPARISON

Scratch, Dent and Graffiti Resistance

Compared to competitive materials, Bobrick materials perform exceptionally well for scratch, dent and graffiti resistance when subjected to industry-standard ASTM test protocols. Consider the relative price of Bobrick's high performance substrates and it's clear: Bobrick materials are the pinnacle of value.

	Material	Price Index	Scratch Resistance ASTM D 2197 Weight Required to Scratch	Impact Resistance ASTM D 2794 Visible Damage, Inches-Pounds Per Force (lbf)	Graffiti Resistance ASTM D 6578 Marks Removed (Out of 6)	Interior Finish Classification ASTM E 84
Bobrick Materials	Compact Grade Laminate (CGL) (Black Core)	\$\$ - \$\$\$	>10kg 	168" -lbf 	5 	Class A or B
	Solid Color Reinforced Composite (SCRC)	\$\$\$	6.0kg 	42" -lbf 	5 	Class B
	High Pressure Laminate (HPL)	\$ - \$\$\$\$	>5.3kg 	22" -lbf 	6 	Class B
Other Manufacturers' Materials	Powder-Coated Metal	\$	<0.5kg 	2" -lbf 	4 	Class A
	Plastic (HDPE)	\$\$	<0.5kg 	<1" -lbf 	3 	In 48 states and Washington, D.C., ASTM E 84 is not the relevant test. Must pass an unmodified NFPA 286 test.
	Stainless Steel	\$\$\$\$\$	1.0kg 	2" -lbf 	5 	Class A

PERFORMANCE SPOTLIGHT

SCRC: Hard to Scratch. Easy to Clean.

The proof is in the testing. SCRC offers the performance you need for high traffic and vandal-prone restrooms.

5 out of 6 marks removed

The ASTM D 6578 graffiti resistance test consists of preparing material samples with marks from six staining agents. After 24 hours, the marks are cleaned until they are removed.

Five out of six marks were removed from SCRC.

Zero scratches under 6 kg of weight

In the ASTM D 2197 scratch resistance test procedure, weights up to 10 kg (22 lbs) are added to a scraper and a material sample is dragged beneath the scraper. When a scratch occurs, the weight is recorded.

SCRC did not scratch with 6 kilograms of weight.

LAMINART
A WILSONART COMPANY

WHY BOBRICK?

PORTFOLIO OF VALUES

BOBRICK

Architects, developers and facility managers have selected Bobrick's performance-engineered cubicles and partitions with confidence since 1970. As the market leader, Bobrick delivers building owner value through design excellence, multiple options, code compliance and long-lasting durability.

DESIGN

Specifiers choose from a variety of materials including Compact Grade Laminate (CGL), Solid Color Reinforced Composite (SCRC) and High Pressure Laminate (HPL) with a substantial selection of colors, patterns and woodgrains. Mounting configurations, Gap-Free® and Maximum Height privacy and hardware options are available.

DURABLE

CGL, SCRC and HPL are first quality, extra-durable cubicle and partition materials that score exceptionally high for graffiti-, impact- and scratch-resistance. Excellent maintainability is another measure of durability and results in long-term performance, minimizing costly repair and replacement expense.

SUSTAINABLE

Hardware is fabricated of 50%-70% post-industrial recycled stainless steel. Regional manufacturing and distribution facilities within 500 miles of 70% of the U.S. population conserve transportation energy consumption. Bobrick cubicles and partitions can contribute to LEED points.

COMPLIANT

Bobrick cubicles and partitions comply with the latest ASTM E 84 Flame Spread and Smoke Development index requirements for Interior Finishes. Bobrick will gladly provide accessibility consultation, including wheelchair accessibility compartment layouts, approaches, turning radiuses and reach range compliance.

HYGIENIC

Cleanability is a key factor in maintaining cubicles and partitions in a sanitary condition. CGL and SCRC surfaces, including doors, stiles and panels, feature Graffiti-Off® non-porous surfaces for easy graffiti removal and disinfection. Other materials with porous textures make cleaning more difficult.

PRIVACY

Architects and designers acknowledge that privacy is playing an increasingly vital role in restroom design. Bobrick answers these needs with privacy options on all of our cubicles and partitions.

THE BOBRICK ADVANTAGE

VALUE-ADDED SERVICES & PROGRAMS

UNPARALLELED EXPERTISE

Bobrick is proud to offer industry-leading products and expertise. For indispensable design, compliance and logistics support, find your architectural representative and other resources at bobrick.com.

Planning Guide for Accessible Restrooms

Washroom Accessories Catalog

RapidResponse®

When you require delivery on a tight deadline, Bobrick can ship certain materials within 2, 5, 10 and 20 days upon order approval.

BOBRICK COMPLIES

All Bobrick cubicle and partition materials are compliant with applicable fire code requirements.

SPANNING THE CONTINENT

Bobrick's regional manufacturing and distribution facilities are within 500 miles of 70% of the U.S. population, conserving transportation energy consumption and contributing to LEED Regional Materials credits.
