Bobrick is at the forefront of the touch-free commercial restroom with automatic models to limit cross contamination. Our stainless products are easy to maintain and sanitize through regular cleaning. Microban® Antimicrobial protection is a Koala® baby changing station exclusive.

Accessories fabricated of 50% - 70% post-industrial stainless steel contribute toward LEED certification. Soap and towel dispensers are engineered to reduce consumables usage eliminating the need for proprietary towers and soap cartridges, thereby reducing the operating footprint of a given building.

Robust engineering and built-in maintainability are the standards for Bobrick restroom accessories and Koala products, providing life-of-the-building functionality with appropriate maintenance. Reduced repair and replacement costs also deliver a positive impact on the operating budget.

Cost-in-use savings are also trademarks of Bobrick restroom accessories. Products are designed to control soap and paper towel usage, reduce labor and maintenance expense, and to be vandal-resistant. Savings calculators, available online, confirm the substantial savings and return on investment.

Non-proprietary dispensing of universal paper towels and bulk soap help building owners escape the high prices of consumables contracts common to closed system products. This facilitates open-market procurement and the ability to take advantage of a large variety of soap and towel options.

Three design-integrated series of accessories include ConturaSeries® for prestige properties, TrimLineSeries® for up scale buildings and ClassicSeries® for standard use and heavy-traffic projects. From Class A to education and health care, recessed and surface-mounted, we have your design.

Our products are engineered to meet the latest accessibility requirements including wall protrusion, mounting height, reach ranges and operation. Bobrick also provides detailed consideration on compliant product selection and installation. Bobrick/Koala meet ADA-ABA, ICC/ANSI, ASTM, EN.

Architects, developers and facility managers have selected Bobrick’s performance-engineered restroom accessories with confidence for more than a century. As the market leader, we deliver building owner value through design excellence, compliance, sustainability, and economical cost-in-use.

WHAT’S NEW

Architects and designers acknowledge that healthcare projects are among the most complex. Bobrick answers these needs with a collection of new and specialized products in concert with a comprehensive line of accessories. For a free copy, visit bobrick.com.

Many Bobrick products assist in fulfilling sustainability and LEED objectives, for example, 50% - 70% recycled stainless steel fabrication. See TB-66.

Satin-finish stainless steel. Door has 90° return, conceals flange. Dispenses 600 C-fold, 800 multifold or 1100 single-fold towels. Removable, leak-proof, 6.3-gal. waste container.

TowelMate reduces towel usage by more than 20%.

One towel at a time, every time.
Eliminates the dispensing of handfuls of towels with the “Perfect Pull Rod” separating and dispensing individual C- or multifold towels. Patented TowelMate accessory installs in existing cabinets without tools and fits all Bobrick dispensers and similar models of other manufacturers.

How much will you save?
In a typical office building with 40 folded towel dispensers, the C-fold usage was 23 cases per month, or $8,000 per year. By using TowelMates, usage dropped 21% for a savings of $1,700 annually. There are additional savings with the use of multifold towels as well as reduced maintenance expense. Visit bobrick.com for an interactive Cost Savings Calculator.

Bobrick’s counter-mounted soap dispensers are the standard of quality and economy

- Top-fill convenience features ease of maintenance
- Saves 25% labor costs with no more bending under the counter to change cartridges
- Reduces post-consumer waste by 57%
- Chrome finish for fixture and accessory integration
- Vandal-resistant locking cover and spout
- Nonproprietary dispenser delivers substantial savings versus proprietary cartridges

NEW

SureFlo Soap Dispensing System

- Serves up to 5 sinks with liquid soap dispensers
- 30% post-consumer waste reduction
- Built-in reservoir eliminates soap waste and outage
- Front-access cabinet for one-minute changeovers
- Handwashes per single cartridge: Liquid soap = 13,000

- Under counter cabinet Type 304 satin stainless steel
- Secured to cabinet with a full-length stainless steel piano hinge
- Internal swiveling design, rotates 360° without losing air-tight seal
- Low soap indicator
- 10" W, 15 ¼" H in front, 18 5/8" D
- Lifetime hardware warranty with exclusive use of Bobrick SureFlo soap

NOTE: Maximum countertop mounting thickness 1 ¾", for thicker countertops up to 4 ¾" order Bobrick Part Number 82-402. One kit required for every counter-mounted soap dispenser.

How to Specify/Order a FOAM System:
Existing/New B-823 dispensers:
- Cabinet: order one B-830 cabinet per restroom (serves up to five dispensers each)
- Pumps: select one of two types below for each sink:
  - 833-359 for a 4" Spout
  - 833-372 for a 6" Spout

How to Specify/Order a LIQUID System:
Existing/New B-822 dispensers:
- Cabinet: order one B-830 cabinet per restroom (serves up to five dispensers each)
- Connector Kit: order one 830-341 for each sink
- Pumps: select one of two types below for each sink:
  - 830-359 for a 4" Spout
  - 830-372 for a 6" Spout

Foam System Cartridge:
- FB-82512 12-liter cartridge of Green Foam Soap

Liquid System Cartridges:
- FB-81412 12-liter cartridge of Green Lotion Soap
- FB-81312 12-liter cartridge of Premium Gold Soap
- FB-81212 12-liter cartridge of Pink Lotion Soap
Top filling saves labor; oversize fill port designed for economical bulk jug soap. No more under-counter servicing of screw-on cartridges.

Liquid bulk jug soap saves more than 80% compared to proprietary closed-system cartridges at locked in prices; SureFlo ROI averages one year.

Polished chrome finish reflects design continuity with other restroom accessories compared to the plastic retrofit hodge-podge.

Electronic Activation System defines the “dispense zone” eliminating hand waving and false dispensing. Adjustable portion control.

Five 800ml soap cartridges hold approximately the same amount as a one-gal. bulk jug resulting in a 57% reduction of post-consumer waste.

How much will you save?
Reduce soap usage by 80%, post-consumer waste by 57%.

Here is a typical example of calculating the savings, based on one sink with one dispenser, comparing bulk fill SureFlo to under-counter proprietary cartridges, resulting in the following savings:

- Per sink, 35 people X 4 hand washes/day = 112ml soap/day
- Equates to 29.5L/year/sink:
  - Bulk soap approximate annual cost $41.01
  - Cartridge soap approximate annual cost $223.24

Annual soap savings: 82%
Post-consumer waste reduction: 57%

There are additional labor saving factors such as top-filling compared to frequent under-counter cartridge changeovers. Plus the time consuming convenience of bulk jug soap.

824-241 BATTERY PACK
Four D-cell batteries last for one year and serve 200,000 handwashes. Batteries not included.

3974-57 OPTIONAL AC ADAPTER
For model B-824.

NEW 824-201 AC ADAPTER KIT
