

## SierraSeries®

## Solid Color Reinforced Composite Maximum Height **Partitions and Screens**

# 2090 **SERIES**

#### **SPECIFICATION**

Height: 71 3/4" (1822mm) Doors and Panels with Standard 4-1/2" (114mm) Floor Clearance Floor Clearance Option: 9" (229mm) or 12" (305mm)

Stiles\* - 3/4" (19mm) thick, SCRC with GraffitiOff™ surface thermoset and integrally fused into one homogenous piece. Surface, edge, core are to be the same color, \*Stiles for 1096 Series floor-to-ceiling anchored units have a leveling device at each end.

#### Standard Size Stiles:

- For compartments 3", 4", 5", 6", 7", 8", 10", 12", 16", 18", 20", or 24" (76, 102, 127, 152, 179, 203, 254, 305, 406, 457, 508, 610mm) wide.
- For screens -6" (152mm) wide.
- Floor-anchored 69" (1753mm) high.
- Overhead-braced 83" (2108mm) high.
- Floor-to-ceiling anchored Up to 120" (3048mm) ceiling height.
- Ceiling-hung -83" (2108mm) high for 96" (2438mm) ceilings or as required up to 120" (3048mm) ceilings.

Panels - 1/2" (13mm) thick, SCRC with GraffitiOff surface thermoset and integrally fused into one homogeneous piece. Surface, edge, core are to be the same color.

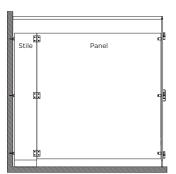

#### Standard Size Panels:

For compartments — Up to 84" (2134mm) wide; 71 3/4" (1822mm) high.

#### Designer's Notes:

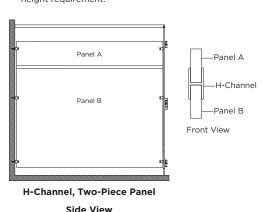

If the width of the panel exceeds 60" (1524mm), the layout will need to be redesigned with one of the following options:

• Add an in-line stile at the back wall to accommodate a large stall depth.

Inline Stile at Back Wall Side View

The panel will be two pieces and require a horizontal H Channel to obtain 71 3/4" (1822mm) height requirement.

**Urinal Screens —** 1/2" (13mm) thick, SCRC with GraffitiOff surface thermoset and integrally fused into one homogeneous piece. Surface, edge, core are to be the same color.

#### Standard Size Urinal Screens:

- For wall-hung screens Up to 24" (610mm) wide; 71 3/4" (1822mm) high.
- For floor anchored and post-to-ceiling screens Up to 60" (1524mm) wide; 71 3/4" (1822mm) high.

Doors - 3/4" (19mm) thick, SCRC with GraffitiOff surface thermoset and integrally fused into one homogeneous piece. Surface, edge, core are to be the same color.

#### Standard Size Doors:

 Inswing and outswing doors are standard 22" to 37" (559 to 940mm) wide; 71 3/4" (1822mm) high.

Edges - SCRC is a natural material comprised of wood chips, dyes and resins with a melamine surface. Edges lack a melamine surface and may discolor in environments with significant UV lighting. Discoloration of edges, should it occur, is not covered under warranty.

Posts (for 2093 Series screens only) — 1 1/4" (32mm) square tubing; 18-8, Type-304, 18-gauge (1.2mm) stainless steel with satin finish. Floor and ceiling connections are constructed of 18-8, Type-304, heavy-gauge stainless steel. Furnished in 120" (3048mm) lengths; to be cut in field to job specifications.

#### Standard Size Post:

• For 2093 Series post-to-ceiling screens only. 1 1/4" (32mm) square. 120" (3048mm); cut to required height in field.

Headrail (for 2092 Series compartments only) — Extruded anodized aluminum. Enclosed construction with sloping top. Face has raised grip-resistant edge.

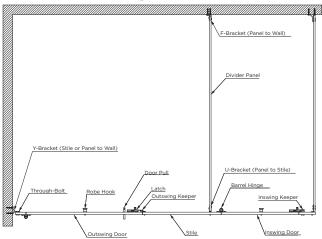

#### Designer's Notes:

· Headrails with integral curtain tracks and hooks are available for compartments without doors. Optional vinyl curtains are available.

Wall Posts - 1" by 1 1/2" (25 by 38mm) wide tubing; 18-8, Type-304, 16-gauge (1.6mm) stainless steel with satin-finish. 72" (1829mm) high, pre-drilled for door hardware

Gapless Wall Posts - 2-3/4" by 1-5/8" (70 by 41mm) wide extrusion; Anodized aluminum finish. 71-3/4" (1822mm) high, pre-drilled mounting holes, hinge drilling to be done in the field (detailed instructions included with wall post packet). Gapless wall posts enable the attachment of a routered gapless door to eliminate sightlines.

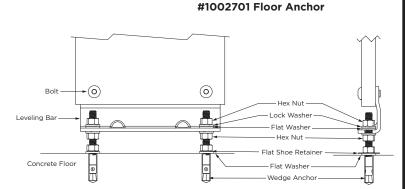

### Top View of 2092 (Barrel Hinge and Standard Bracket) Installation.

### ANCHORING DEVICE:

**Leveling Device** — 3/16" (5mm) thick, corrosionresistant, chromate-treated, double zinc-plated steel angle leveling bar bolted to stile; furnished with 3/8" (10mm) diameter threaded rods, hex nuts, lock washers, flat washers, spacer sleeves, expansion anchors, and shoe retainers.

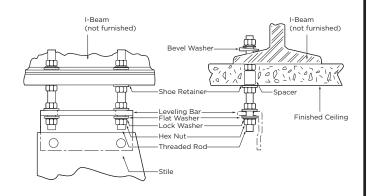

**Shoe** — 18-8, Type-304, 22-gauge (0.8mm) stainless steel with satin finish; 4" (102mm) high. \*Stiles for 1086 Series floor-to-ceiling anchored have a leveling device at each end.

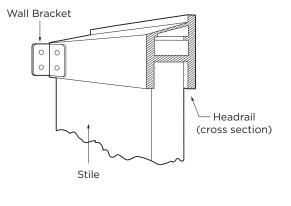

#### **CEILING LEVELING DEVICE**

Provisions must be in the construction of the building to support ceiling-hung toilet partitions. Structure in ceiling, not furnished by Bobrick, must support at least 275 lbs. per compact grade laminate toilet compartment, and must be sufficiently rigid to withstand swinging motion of toilet partition doors and impact of doors against stiles. Actual mounting system, including lateral bracing, if required, must be designed by the architect or structural engineer, and furnished by others. Wood beams are not recommended for ceiling hung application. **Note:** If adequate ceiling support cannot be provided, the flooranchored or overhead-braced toilet compartments are recommended.

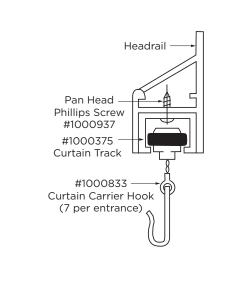

**Approximate Weight:** Solid Color Reinforced Composite Toilet Compartment - 275 lbs.

### **HEADRAIL INSTALLATION DETAIL**

### **CURTAIN TRACK INSTALLATION DETAIL**

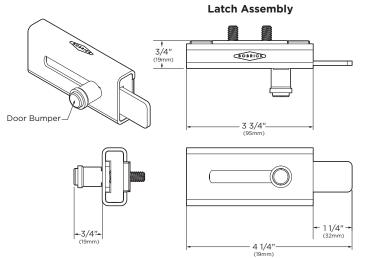

### **COMMERCIAL HARDWARE (STANDARD)**

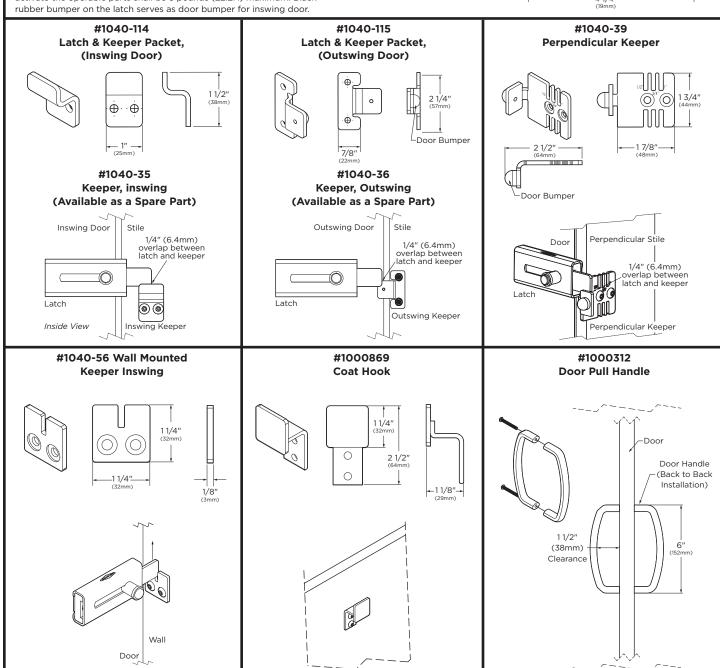

Hinges, door latch, door keepers, clothes hooks, mounting brackets and door handles are constructed of 18-8, Type-304, heavy-gauge stainless steel with satin finish.

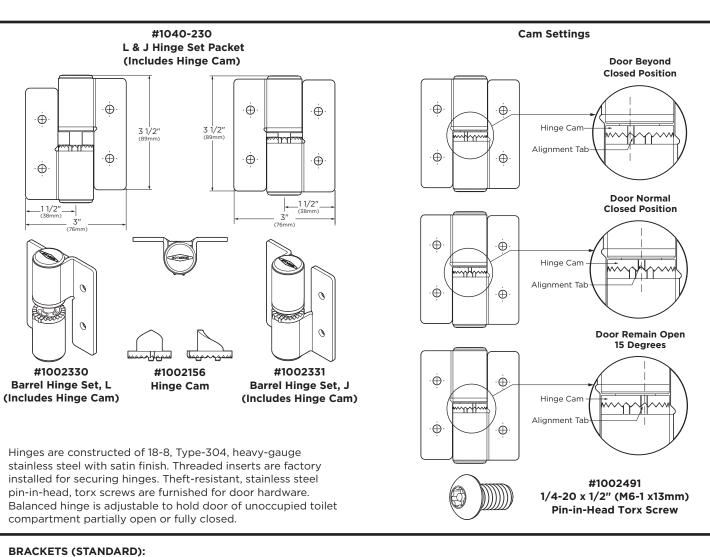

Threaded inserts are factory installed for securing hinges and door latch. Theft-resistant, stainless steel pin-in-head, torx screws are furnished for door hardware and all mounting brackets. Mounting screws for stile to panel bracket, latch keeper, and coat hook connections are through-bolted.

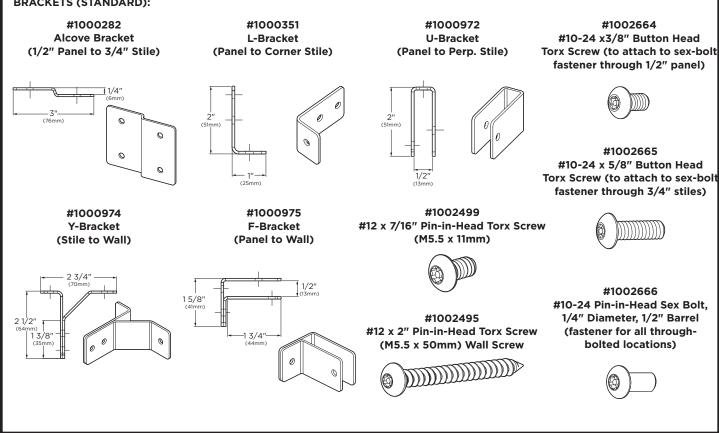

Balanced hinge is adjustable to hold door of unoccupied toilet compartment partially open or fully closed.

Toilet compartment door is locked from inside by sliding door latch into keeper. A locked compartment may be opened from outside by lifting door to disengage latch from keeper. Track of door latch prevents inswing door from swinging out beyond stile; on outswing door, the door keeper prevents it from swinging in beyond stile. Door handles and latch have operable parts that are operable with one hand and do not require tight grasping, pinching, or twisting of the wrist; and comply with ADA Sections 404.2.7 and 309.4. The force required to activate the operable parts shall be 5 pounds (22.2N) maximum. Black rubber humper on the latch serves as door humper for inswing door.

### **CONTINUOUS .67 BRACKET (OPTION):**

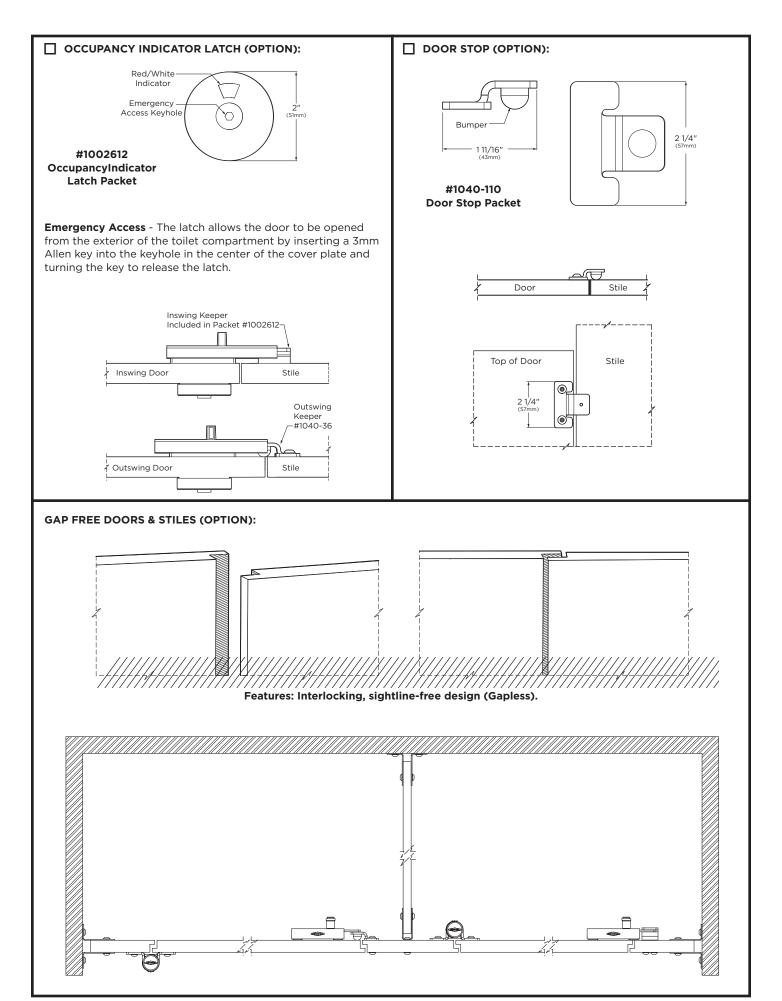

Mounting brackets are constructed of 18-8, Type-304, heavy-gauge stainless steel with satin finish: one-piece, full-height U-channels and angle brackets are 18 gauge (1.2mm). U-channels secure panels to stiles, and angle brackets secure panels and stiles to walls. Theft-resistant, stainless steel pin-in-head, torx screws are furnished for U-channels, Z-bracket and angle brackets. Mounting screws for stile to panel bracket are through-bolted.

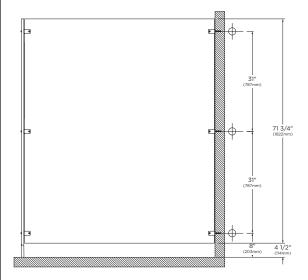

#### **CONTINUOUS .67 HINGES (OPTION):**

Hinges are constructed of 18-8, Type-304, heavy-gauge stainless steel with satin finish: one-piece, full-height hinge is 16 gauge (1.6mm); Theft-resistant, stainless steel pin-in-head, torx screws are furnished for door hardware. Doors are equipped with a gravity type self-closing hinge. Threaded inserts are factory installed to secure door hinge. The continuous hinge (.67 option) depends on the weight of the door to return the hinge to its closed position, which may result in door slamming.

### **INSTALLATION:**

Refer to Bobrick installation instructions packed with each shipment. Also available on bobrick.com. Form No. 2090-69.

#### NOTES

- 1. Floor-to-ceiling toilet compartments require structural members (not furnished by Bobrick) in ceiling. For suggested types of ceiling support systems, see Bobrick Advisory Bulletin TB-32.
- 2. Wall backing is required to secure the mounting brackets of panels, stiles, and wall posts. For suggested wall backing, see Bobrick Advisory Bulletin TB-46.
- 3. Floor-anchored stiles are furnished with expansion shields and threaded rods. The expansion shields require minimum 2" (50mm) penetration into minimum 3" (75mm) thick structural concrete.
- 4. Bobrick stainless steel partition-mounted washroom accessories are available for mounting in panels between two compartments. See current Bobrick Catalog for description of accessories. Cutouts in panels can be pre-cut for Bobrick models at factory if location and size of all cutouts and Bobrick model numbers are furnished at time of order.
- 5. When the hinge cam has been set at the desired free resting position, "either closed or open" the top of the affixed components will be aligned.

#### **GUARANTEE:**

Bobrick toilet partitions including all hardware and mounting brackets are guaranteed to be free from defects in material and workmanship for a period of one year from date of purchase. Any products returned to Bobrick under this guarantee will be repaired or replaced at no charge. **25-Year Warranty**: Bobrick extends a twenty-five-year limited warranty from date of purchase for SierraSeries Solid Color Reinforced Composite (SCRC) partition panels, doors, and stiles against breakage, delamination and corrosion when materials are properly installed, and normally used.
