

AutoRoll Paper Towel Dispenser Series

Provides Design Continuity and High Capacity

Intuitive, patron-friendly green LED light clearly directs users to towel activation zone, eliminating hand waving frustration.

The no-touch sensor-driven activation improves washroom hygiene while the concealed towel feature decreases the risk of cross-contamination from airborne contaminants.

These models use roll paper towels that cost less, reduce waste and need less maintenance. The non-proprietary design provides freedom from costly paper contracts.

They also help to protect the environment through automatic dispensing that reduces excess consumption. Their adjustable towel lengths promote maximum conservation.

BUILDING VALUE SINCE 1906

Maintain the aesthetic integrity of your washroom with AutoRoll's integrated design and satin-finish stainless steel.

B-3974 Recessed Towel/Waste

B-2974 Surface-Mounted

B-29744 Semi-Recessed

3974-150 Interchangeable Module

New color indicator lights:

- Green: Ready to dispense
- Red: Contact maintenance
- Orange: Low batteries*

*3974-55 AC adapter eliminates battery requirement.

Patent pending.

Features and benefits:

- Converting from folded towels to roll towels saves 30%
- Open-market non-proprietary purchasing provides freedom from locked-in contract prices
- Adjustable lengths and stub roll utilization for zero waste
- Sustainable type 304 satin-finish, 50%-75% recycled post-industrial stainless steel
- Durable fabrication, hygienic operation, accessibility compliant

Bobrick interchangeable towel and waste modules

Convertible series cabinets allow facility managers to change between folded, mechanical roll and automatic roll paper towel dispensers. Waste bin capacity can also be adjusted in the field without changing the cabinet. Modules below can be interchanged in B-3974, B-3944, B-3961 and their alternate models. Modules can also be used in many other manufacturers' similar cabinets.

3974-150 automatic dispenser module; **3961-50** touch-free, pull towel dispenser module; **3944-52** folded towel dispenser module; **367-60** 45.4 L waste bin module; **368-60** 68.1 L waste bin module.
