Bobrick Washroom Accessories Earn *Building Design + Construction* 75 Top Products Honors

NORTH HOLLYWOOD, CA, January 4, 2024 – Bobrick Washroom Equipment, Inc. is pleased to announce that two of its innovative products– the Automatic, Universal Roll Towel Dispenser and the Surface-Mounted Napkin/Tampon Dispenser – earned honors from *Building Design + Construction* (BD+C) as two of their 75 Top Building Products for 2023.

Bobrick's Automatic, Universal Roll Towel Dispenser was chosen as a top-75 product by a jury of architects, engineers, and construction professionals. The refined Automatic, Universal Roll Towel Dispenser provides a reliable, touchless operation, free from proprietary paper towel contracts. The profile was updated with a streamlined appearance and improved operation, and the new and intuitive, patron-friendly LED light directs users to the towel activation zone, eliminating hand-waving frustration.

Bobrick's B-2974 surface-mounted Automatic, Universal Roll Towel Dispenser

An additional benefit of the Automatic, Universal Roll Towel Dispenser is that it accommodates universal roll towels, which cost less, reduce waste and require less maintenance for reduced

total cost of ownership, especially in high-traffic facilities. This modern solution is a key element of a well-designed, high-functioning, hygienic restroom that will stand the test of time.

The BD+C editorial team selected Bobrick's Surface-Mounted Napkin/Tampon Dispenser as a top-75 product because of its level of innovation and overall usefulness to the industry.

More than half the states in the U.S. have legislation requiring menstrual care products to be readily available in public spaces, and many more have legislation pending and new bills being introduced. As an advocate for requirements for increased and free access to menstrual care products, Bobrick offers a selection of Napkin/Tampon Dispensers that support hygiene, health, and wellness in public restrooms and guarantee compliance with local law.

Bobrick offers the largest selection of free-vend and token-vend Napkin/Tampon Dispensers among all North American washroom accessory manufacturers. The collection spans three design series (ClassicSeries®, TrimLineSeries™, and ConturaSeries®) in three mounting configurations (surface-mounted, semi-recessed, and recessed).

Bobrick's B-2706 Surface-Mounted Napkin/Tampon Dispenser

These units are ADA-compliant, durable, hygienic, cost-effective, and easy to maintain and restock. All units are free from proprietary contracts and operate easily and intuitively with less than 5 lbs. of force and without tight grasping, pinching, or twisting of the wrist. Most important, they provide free/complimentary solutions to menstrual care products for those most in need.

Visit Bobrick.com/spec-and-roll to learn more about Bobrick's Automatic, Universal Roll Towel Dispenser. For more information about Bobrick's Napkin/Tampon Dispensers and how Bobrick supports increased access to period products, visit Bobrick.com/napkin-tampon-legislation/
