

**BobrickSMART**  
Intelligent Insights. Exceptional Results.

**BUILDING VALUE SINCE 1906**

# Data-Integrated Accessories, Same Trusted Reliability

## Introducing BobrickSMART

BobrickSMART turns proven commercial washroom accessories into intelligent analytics assets, capturing real-time data and delivering actionable insights directly to facility teams.

Designed for high-traffic facilities and seamless integration into new or renovated spaces, BobrickSMART drives measurable ROI through efficiency and proactive maintenance.

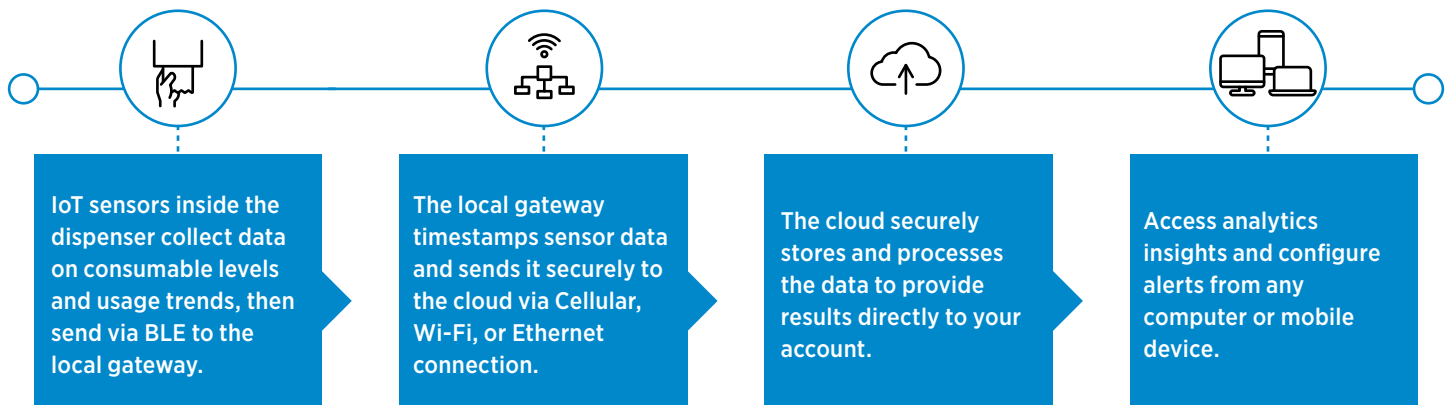

When paired with Thrislington's Smart Cubicles, it creates a fully connected washroom system that anticipates needs before they become issues.

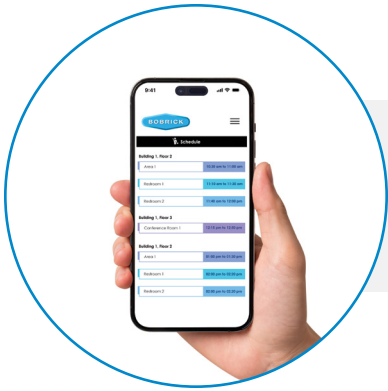

### Specs & Features:

Our products feature thoughtfully engineered, touchless solutions, keyed alike for seamless access, built on non-proprietary designs for maximum flexibility.

## How it Works

## Intelligent, data-informed cleaning schedules

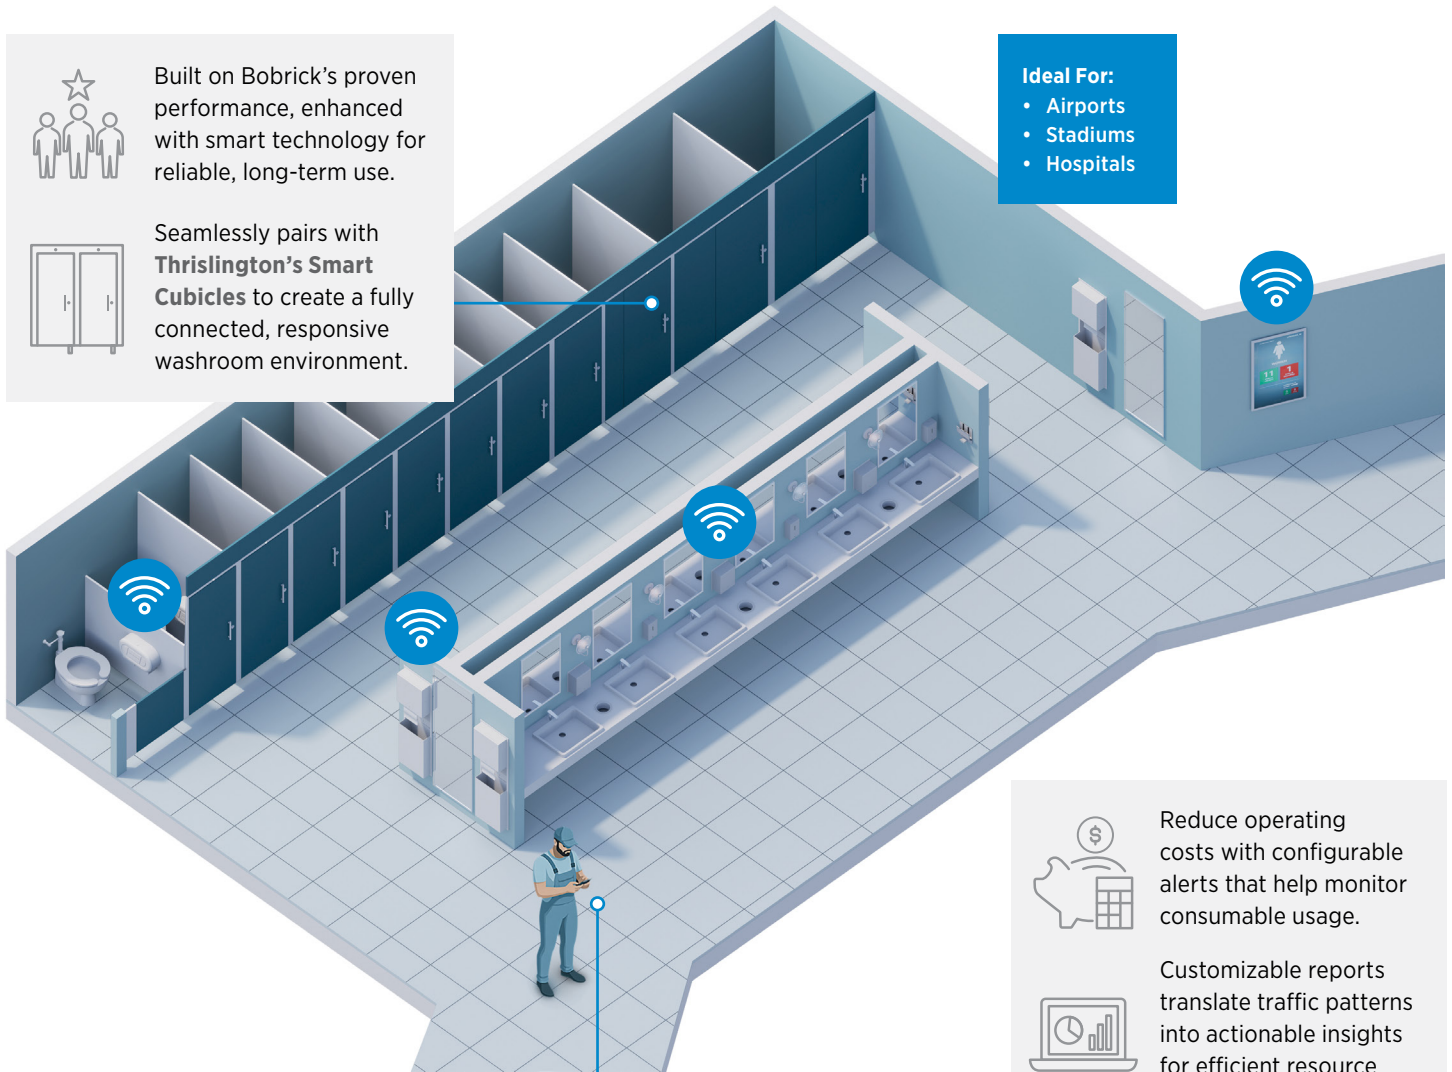

### Why Choose BobrickSMART

Built on Bobrick's proven performance, enhanced with smart technology for reliable, long-term use.

Seamlessly pairs with **Thrislington's Smart Cubicles** to create a fully connected, responsive washroom environment.

#### Ideal For:

- Airports
- Stadiums
- Hospitals

Achieve up to 25% labor savings\* with AI-optimized schedules that help minimize unnecessary service trips.

\*Based on high-traffic case study data from Zan Compute.

Reduce operating costs with configurable alerts that help monitor consumable usage.

Customizable reports translate traffic patterns into actionable insights for efficient resource allocation.

Deliver a positive patron experience with clean, stocked restrooms.

Contact us to learn how **BobrickSMART** can pay for itself.

# BobrickSMART

Smart, connected design—  
engineered for your next build

Ordering BobrickSMART accessories is simple. Begin by connecting directly with your Bobrick Sales Representative to discuss project needs and identify the right smart accessories. Or contact us at [smartwashroom@bobrick.com](mailto:smartwashroom@bobrick.com) and we will reach out to you.

Our team will help confirm the best fit for your facility and guide you through the integration options:

- A **turnkey analytics and dashboard solution powered by Zan Compute**, for an all-inclusive deployment.
- An **open API** that connects seamlessly with your existing building management system or third-party analytics provider such as TRAX Analytics.

After your BobrickSMART accessories are ordered, Bobrick will provide system training, so your facility team is ready as soon as the units are installed. Bobrick will also provide ongoing consulting as needed to help ensure you maximize the full potential of BobrickSMART.
