Products for Healthcare Facilities

Products for Healthcare Facilities

Architects and designers acknowledge that healthcare projects are among the most complex. Accommodating patron and staff requirements vary from one environment to another. Bobrick answers these needs with a collection of new and specialised products in concert with a comprehensive line of accessories.

BUILDING VALUE SINCE 1906

Bobrick proudly points to a 100-year plus history of engineering and producing healthcare products that meet the stringent criteria for design excellence, hygiene, compliance and durability.

HEALTHCARE APPLICATION

This brochure is divided into four specialised healthcare environments that provide routine and sensitive medical services to patients with a variety of treatment requirements and physical challenges. Joining Bobrick's new design-integrated medical products collection are also many models from the Company's extensive line of accessories.

PATIENT RESTROOM

Among the more specialised products is the new heavy-duty folding shower seat designed for bariatric patients. It is offered in left and right configurations for installation flexibility.

INDIVIDUAL RESTROOM

This multi-functional room is designed for collecting patient specimens as well as serving the public. The new accessibility-compliant specimen pass-through cabinet features interlocking doors for security and privacy.

EXAMINATION TREATMENT ROOM

Several new products are installed in this treatment room including a hygienic foot-operated waste receptacle, sharps disposal, charting station and secure narcotics cabinet.

ASSISTED CARE RESTROOM

New products of interest are the white vinyl coated accessories, curved shower rod, folding bathtub seat and antimicrobial, warm-to-the-touch, grab bars for extra patient comfort.

PATIENT RESTROOM

A FOLDING SHOWER SEATS

Reversible wall-mounted foam padded and solid phenolic models, and foot-supported bariatric units. **NEW** B-918116R bariatric (shown).

NEW B-918116L, **NEW** B-5192, **NEW** B-5193.
