Bobrick's Napkin/Tampon Vendors Fill Need for Access to Period Products *Specify Bobrick's Free Solutions to Stay Ahead of Legislative Trends*

NORTH HOLLYWOOD, CA, August 2, 2023 – More than half the states in the U.S. have legislation requiring menstrual care products to be readily available in public spaces, and many more have legislation pending and new bills being introduced.

Bobrick Washroom Equipment, Inc., an industry leader in global washroom accessories, offers a selection of Napkin/Tampon Vendors that support hygiene, health and wellness in public restrooms and guarantee compliance with local law.

Bobrick's selection of Napkin/Tampon Vendor units are ADA-compliant, durable, hygienic, cost-effective, and easy to maintain and restock. All units are free from proprietary contracts and operate easily and intuitively with less than 5 lbs. of force, and without tight grasping, pinching or twisting of the wrist. Most important, they provide free/complimentary solutions to menstrual care products.

"Limited access to menstrual care products away from the home is a critical concern," said Nilofar Yagana, Bobrick's Vice President, Marketing. "Architects and designers can be leaders by providing free access to menstrual care products for those most in need while ensuring legislation compliance."

In October 2022, ISSA, the worldwide cleaning industry association, launched "End Period Poverty." This educational and advocacy campaign aims to build on bipartisan legislation already passed that requires period products to be more readily available in away-from-home venues. The goal is to ensure no one is without easy access to necessary period products and disposal solutions when needed.

"By incorporating Bobrick's Napkin/Tampon Vendors into their designs, architects are providing a reliable, easy-to-use solution that improves the health and well-being of those that need these products the most," said Yagana.

Bobrick currently offers the largest selection of free-vend and token-vend products among all North American washroom accessory manufacturers. The collection spans across three design series (ClassicSeries®, TrimLineSeries™ and ConturaSeries®) and is offered in three mounting configurations (surface-mounted, semi-recessed and recessed). Bobrick's recessed and semi-recessed models also satisfy the ADA 4" protruding objects requirement.

Architects looking for solutions to help end period poverty and stay ahead of trending legislation should specify Bobrick's series of Napkin/Tampon Vendors, which provide free, secure and hygienic access to menstrual care products. [Learn more here.](#)
