

## ROLL OR FOLD?

Roll Paper Towels

### Benefits

- More sustainable than folded paper towels in most buildings
- Automatic feature adjustable towel lengths.
- Stub roll utilization feature provides complete consumable usage with less replacement time

### Ideal Applications

- Buildings where sustainable operation is important
- High-traffic facilities
- Projects with stringent operating budgets

Folded Paper Towels

### Benefits

- When TowelMate is installed, units dispense one towel at a time, reducing consumption and waste
- Faster dispensing of towels
- Dispensers may be concealed, countertop mounted or have minimal wall protrusion

### Ideal Applications

- Restrooms where low-profile design is desired, but recessed roll dispensers are not viable
- Prestige buildings with low-to-medium traffic where a minimalistic design theme is preferred
